

ALTO Fixed Scaffold Stair

ISSUE 01	DATE Feb 18	PAGE 1 of 2
-----------------	--------------------	--------------------

Overview

The Alto Fixed Scaffold Stair is an all-aluminium access solution designed to be used on a wide variety of system scaffolding as well as traditional tube & fitting scaffold. A cost-effective, safer alternative to using vertical ladders.

Made of corrosion resistant, structural quality aluminium extruded profiles for strength and reliability, the Alto Fixed Scaffold Stair is a simple and versatile solution to the working scaffolders needs.

Like all Alto products, the Alto Fixed Scaffold Stair is designed to be effective, durable and fully compliant with BS EN 12811 in all permissible configurations. Optional compliant handrails are also available for all height variations.

Specification

STANDARD	BS EN 12811
LIFT HEIGHTS	1.0m, 1.5m & 2.0m
TREAD WIDTHS	500mm clear internal width
TREAD LOADING	200kg UDL
STRINGERS	6082T6 extruded aluminium box section
HANDRAILS	Quick-fitting aluminium handrails

ALTO Fixed Scaffold Stair

ISSUE 01	DATE Feb 18	PAGE 2 of 2
-----------------	--------------------	--------------------

Key Features

Fully Compliant

The Alto Fixed Scaffold Stair is designed to give scaffolders a cost effective stair access solution with practical, reliable and compliant equipment designed to fit 48mm dia. scaffold tube. With this product you can quickly install a fully compliant stair access to your scaffold.

Minimum tools

The Alto Fixed Scaffold Stair can be installed without the use of any tools. Optional handrails are locked in place using a standard scaffold spanner.

Ease of maintenance

Made with standardised components and an all bolted construction, the Alto Fixed Scaffold Stair can be maintained by any competent operator.

Comfortable

With a clear width of 500mm, the extruded, slip resistant treads and smooth handrails makes using the stair comfortable and convenient for the user.

Versatile

There are 3 standard models in the range 1.0m, 1.5m and 2.0m lift heights.

The Height of Safety

As with all Alto equipment, safety is our primary concern. Slip-resistant treads and simple, effective, quickly fitted, compliant handrails give peace of mind to responsible management.
